

# GROOT KE

grootke.game@gmail.com / 0707657191 / Nairobi, Kenya

---

## Summary

- As a software developer, I possess a diverse skill set that encompasses a wide range of programming languages and technologies, enabling me to tackle complex challenges in various domains. My proficiency in languages such as Python, Java, and C++ allows me to develop robust applications, while my expertise in web technologies like HTML, CSS, and JavaScript equips me to create dynamic and user-friendly websites. Additionally, I have experience with modern frameworks and tools, including Flask and React, which enhance my ability to build scalable and maintainable solutions. With a strong foundation in software development principles and methodologies, I am dedicated to continuous learning and improvement, ensuring that I stay at the forefront of industry trends and best practices. My passion for problem-solving and collaboration drives me to deliver high-quality software that meets user needs and exceeds expectations.
